Transmission oil Your transmission oil plays a vital role as both a lubricant and coolant. As it's subjected to more and more gear changes, it gradually becomes thinner and needs to be replaced. Your Service Schedule recommends this at 38,000 miles and Audi Trained Technicians are experts in providing this service.

~~Servicing Audi UK~~

The gearbox oil that the TT independent used was Audi OEM..... BUT, they said it was of a different spec to the OEM that used to be used by Audi when my car was originally supplied (March 2001). The upshot is that all this happened about three years ago and I've not had a crunch since.

Fortunately, changing manual transmission fluid in the A4 is actually easier than changing the oil, at least in a manual transmission car, because you don't have to change the filter as well. You simply drain the old lubricant and find a way to fill the transmission with new fluid. It's easier to do this job if you first raise the car to a level position (the fill hole, when the car is level, serves as the indicator that the transmission has the proper amount of oil in it), and then remove ...

The transmission fluid in the Audi A4 is designed to last for a long time; according to Audi, it is good for the life of the car. Most service people you ask, though, would recommend you change it at least every 100k miles, and anything less than 50k miles is going to be overkill.
