Maintaining Accounting Records. Accounting is the act of sorting and recording information. Accounting procedures can help you manage the huge amount of information that a business can generate. Accounting records sort and categorize financial data into groups of information that are meaningful to stakeholders of the business.

Maintaining Accounting Records - Finance Train

Well kept records means tax saving. Well kept accounting records act as a reminder of a person ' s deductible credits and expenses. It ' s only by keeping correct records of business expenses that owners are able to proof various expenses that were incurred while carrying out business operations. By doing this, they are not forced to rely on memory.
