Physical education (PE) remains the subject in coeducational schools that is most likely to be delivered in gender segregated sessions. Decisions to offer single sex lessons are often underpinned by discourses and practices associated with doing gender that emphasise differences in boys' and girls' attitudes, behaviours, abilities and experiences.

This would provide them with a deeper understanding of why the course content is laid out in the way it is. The Jigsaw Strategy comes to mind. This strategy would also allow the student to incorporate his experiences as example as an approach to teaching it to his jigsaw group. See this post about the Jigsaw Instructional Strategy.

This study examined the effectiveness of a classroom teacher intervention, the Targeted Reading Intervention (TRI), in helping struggling readers in kindergarten and first grade. This intervention used biweekly literacy coaching in the general education classroom to help classroom teachers use diagnostic strategies with struggling readers in one-on-one 15-min sessions.
