The Apollo name didn' t last long in Polaris ' lineup — it was launched (pun shamefully intended) as an Apollo 340 in 1979, returned without the number designation as simply an Apollo in 1980 and then disappeared. So, with no further ado, here ' s the text and photo flats from the 1980 Polaris press launch of the Apollo, in all of their glory:

~~Remember The Apollo, Snowmobile That Is!~~ ~~SnowGeer~~

In our latest installment of " My First Sled ", we take a look our first snowmobile: the 1979 Polaris Apollo 340. The 1979 model year was Polaris ' s 25th anniversary and it was the debut season for the Apollo (which replaced the SS 340). It was situated in the ' 79 line-up between the entry-level Gemini and the two-up Cobra. The Apollo was a no-frills machine marketed an economy sled. It was lightweight, moderately powered and nothing short of bullet-proof.
