In the United Kingdom, there is a set of standards in place for annual financial accounting called the UK GAAP (United Kingdom Generally Accepted Accounting Principles). These principles are set in place by the UK Financial Reporting Council (FRC), and are a national version of the international accounting standards set by the IFRS. The accounting principles contained in the UK GAAP are only required for listed companies, though many non-listed businesses choose to follow them as well.

~~Uk Accounting Principles Guide — dev.destinystatus.com~~

Whilst there is currently no universally standardised accepted accounting principles, there are various accounting frameworks which set the standard body. The most common accounting principle frameworks used are IFRS, UK GAAP, and US GAAP. There are both similarities and differences between these three frameworks, where GAAP is more rule-based whilst IFRS is more principle based.
