Traditional central air conditioning is not always the best fit for every home. If you have an older home, installing whole-home air conditioning may not be possible due to lack of space for ductwork. Fortunately, there's a popular, flexible solution: ductless heating and cooling units, known as ductless mini split air conditioners.

### **Ductless Mini Splits - The Home Depot**

A 50 percent - 50 percent joint venture between Trane Technologies and Mitsubishi Electric US, Inc., the company provides innovative products, systems and solutions capable of cooling and heating any application from a home to a large commercial building.
