Encyclopedia Of Cats

Cats is a sung-through musical composed by Andrew Lloyd Webber, based on the 1939 poetry collection Old Possum's Book of Practical Cats by T. S. Eliot.It tells the story of a tribe of cats called the Jellicles and the night they make the "Jellicle choice" by deciding which cat will ascend to the Heaviside layer and come back to a new life. The musical includes the well-known song "Memory" as ...

Cats (musical) - Wikipedia

Origin and history of cats. The "cat pattern," established very early in the evolution of modern mammals, was a successful one: early cats were already typical in form at a time when the ancestors of most other modern mammalian types were scarcely recognizable.They first appeared in the early Pliocene Epoch (5.3 to 3.6 million years ago), and they have continued with remarkably little ...

cat | Breeds & Facts - Encyclopedia Britannica

Feline, any of 37 cat species that among others include the cheetah, puma, jaguar, leopard, lion, lynx, tiger, and domestic cat. Cats are native to almost every region on Earth, with the exception of Australia and Antarctica. They are carnivorous mammals that live in a wide variety of habitats.

feline | Definition, Species, and Facts | Britannica

The cat (*Felis catus*) is a domestic species of small carnivorous mammal. It is the only domesticated species in the family Felidae and is often referred to as the domestic cat to distinguish it from the wild members of the family. A cat can either be a house cat, a farm cat or a feral cat; the latter ranges freely and avoids human contact. Domestic cats are valued by humans for companionship ...

Cat - Wikipedia

Cats, also called domestic cats (*Felis catus*), are small, carnivorous mammals, of the family Felidae.. Domestic cats are often called 'house cats' when kept as indoor pets. Cats have been domesticated (tamed) for nearly 10,000 years.. They are one of the most popular pets in the world. They are kept by humans for hunting rodents and as companions.. There are also farm cats, which are kept on ...

Cat - Simple English Wikipedia, the free encyclopedia

The lion (*Panthera leo*) is a large mammal of the Felidae (cat) family.Some large males weigh over 250 kg (550 lb). Today, wild lions live in sub-Saharan Africa and in Asia. Lions are adapted for life in grasslands and mixed areas with trees and grass. The relatively small females are fast runners over short distances, and coordinate their hunting of herd animals.
