Infrastructure Planning and Management. Introduction to Infrastructure; The Infrastructure Scenario in India; The Power Sector in India; The Water Sector in India

### Infrastructure Planning and Management - NPTEL

Efforts to achieve IUWM/WSUD exist within a complex "Water Infrastructure Planning " and "Urban Planning" context. Decision-making and planning processes used within the water sector and the urban planning sector affect and govern changes to urban outcomes, including both urban form and infrastructure (Furlong et al., 2016c). Identifying the specific planning processes through which each of these sectors has an impact on urban outcomes is a complex task.
