LogixPro 500 PLC Simulator by TheLearningPit.com

This lesson explains RsLogix 500 instructions: TON (Timer on delay), TOF (Timer off delay), and RTO (Retentive Timer On). Rung 0. A TON instruction will time, as long as the instructions preceding it on the rung are true and the accumulated value is less than the preset.

RsLogix 500 Training - Timers - TON, TOF, and RTO

The LogixPro Student Resources and Programming Exercises are designed to aid the student in mastering the fundamentals of RSLogix operations, programming and troubleshooting using TheLearningPit's LogixPro PLC simulation software.

Allen Bradley RSLogix Simulator - Training Resources

PLCLogix 500 features 65 instructions and PLCLogix 5000 has 80 instructions. These instructions encompass all of the main programming commands associated with either the Logix 500 or 5000 PLC. The PLCLogix Instruction Set consists of the following groups of commands: Bit Instructions, Timer and Counter Instructions, Program Control, Compare, Math, Advanced Math, Move/Logical, Array Shift and ...

PLCLogix - Instruction Set

General-purpose math instructions dramatically shorten the length of a ladder program compared to the use of dedicated math instructions for any applications requiring non-trivial calculations. For example, the same Fahrenheit-to-Celsius temperature conversion program implemented in Logix5000 programming only requires a single math instruction and no declarations of intermediate variables:
