By mastering APA style and reading APA style reports, a student learns how a participant is to be conceptualized in contemporary psychology and other details about the way her or his discipline constructs knowledge about the world. and is encouraged over time to think in ways characteristic of the discipline. Characteristics of APA Style

The language of psychology: APA style as epistemology.

APA Style encourages using the active voice as it creates direct, clear, and concise sentences. For example, use the active voice to describe the actions of participants and others involved in your study, as in "the patients took the medication orally," not "the medication was taken orally by the patients."

APA Formatting

APA uses parenthetical citations. Use the last name of the author or authors and then cite the year of creation for the work (if applicable). Put a comma in-between the author and year. If it is a direct quote, put another comma and then p. (page number) where the quote can be found. For example:

APA Guide - Ocean County College Library Subject Guides

In subsequent citations (or when there are six or more authors), only the first surname is included (Cooper et al., 2004). If there is no author, then the source title is used in text and the first word or two of the title is placed in parenthesis (Mastering APA, 2009).
