Project finance is made up of anumber of building blocks, although all of these are not found in every project finance transaction (cf. \$2.4), and there are likely to be ancillary contracts or agreements not shown in Figure 2.1 The project finance itself has two elements: Equity, provided by investors in the project Project finance-based debt, provided by one or more groups of lenders The project finance debt has first call on the project's net operating cash flow; the equity investors ...

FINANCE Principles of project finance - PDF Free Download

Project finance is the long-term financing of infrastructure and industrial projects based upon the projected cash flows of the project rather than the balance sheets of its sponsors. Usually, a project financing structure involves a number of equity investors, known as 'sponsors', and a 'syndicate' of banks or other lending institutions that provide loans to the operation.
