When children have a sense of agency they feel more in control of themselves and develop an understanding of their influence on the people and spaces around them. When we listen with respect to children's voices, their words, and their ideas we model trust and collaboration showing them that they are heard and their ideas matter.

Japan panel seeks basic law for creation of children's agency

Agency is the capacity of an actor to act in a given environment. It is independent of the moral dimension, which is called moral agency.. In sociology, an agent is an individual engaging with the social structure.Notably, though, the primacy of social structure vs. individual capacity with regard to persons' actions is debated within sociology. This debate concerns, at least partly, the level ...
