A large community could afford to have specialists who made farm tools, crafted pots, and traded within the village and between the locals and outsiders. The people in today's Palestine established the first known city, Jericho, and thus the first step towards specialization -- which lies at the heart of economic advancement -- around 8000 B.C.

November is Historic Bridge Awareness Month. Today with modern transportation, we often take the very existence of bridges for granted. Try to imagine what it must have been like for early settlers in the Presque Isle area alone where we were bounded on the west of the village by the stream and on the north and east by the Aroostook River.

This myth began long before the Civil War. Michael C. C. Adams observes, “even before the abolitionist attack from the North, Southerners began the defense of slavery as a social system that provided unique benefits, both for the slaves whom it placed under the fatherly care of a superior race and for the master who was given the freedom from toil necessary to the creation of a superior ...
